Feedstock types:		☐
Feedstock origin (countries):		☐
SBP-endorsed Regional Risk Assessments used: Public link: https://sbp-cert.org/documents/standards-documents/risk-assessments/	Not applicable	☐
Chain of custody system implemented:	FSC: NC-COC-011838 PBN-PEFC-COC-000130	☐
	Transfer	☐

2.1 Description of the company

Södra Wood A/S is trader in wood pellets and wood chips with its SBP scope covering trading activities only. The purchase and sales are usually made under the INCOTERM FOB terms for both purchases and sales, but could also be CIF depending on the customer's facilities. The Organisation is not in physical possession of claimed material.

2.2 Detailed description of the Chain of Custody system

The Organisation implements a FSC CoC transfer system although it is never in physical possession of claimed material.

3 Specific objective

The specific objective of this surveillance audit was to confirm that the Organisation's management system is being implemented in accordance with SBP standard requirements applicable to traders, including the use of outsourced storage functions, and maintaining conformance with SBP CoC and FSC CoC requirements, including activities handled by subcontractors.

This report documents the third annual surveillance audit.

The Organisation holds valid FSC and PEFC certificates with transfer systems implemented. The point of purchase varies, and can be FOB, at storage facilities in several ports or EXW at the biomass production facility, and the point of sale can be FOB at export harbour, CIF at harbour or at customer's facilities.

The scope of the evaluation covered:

- Review of the BP's documented procedures;
- Review of the storage / logistics processes,
- Review of FSC system control points, analysis of the existing FSC CoC system;
- Interviews with responsible staff;
- Review of the records on-site.

4 Evaluation process

4.1 Timing of evaluation activities

Audit Level of Effort (LoE)		
Activity	Auditors	Auditor hours
1. Preparation	Christian Jürgensen	3.0
2. On-site (excl. travel time)	Christian Jürgensen	6.5
3. Report writing	Christian Jürgensen	4.0
4. Other	N/A

Auditor qualification		
Auditor name	Role	Qualification
Christian Jürgensen	Lead Auditor	Christian holds a master's degree in Forestry and Nature Management from Copenhagen University and has more than 12 years of experience within state administration, the UN system and the NGO field. At Preferred by Nature he functions as a senior biomass auditor and coordinates and conducts evaluations against the SBP and RBP biomass standards, the Danish biomass legislation, PEFC and FSC forest standards and PEFC and FSC chain-of-custody (CoC) standards.

4.2 Description of evaluation activities

This audit was done concurrently with the FSC and PEFC CoC audit of the organization and verification of EU RED II compliance of the company's wood pellets imports.

The auditor convened with representatives of the Organisation for the opening meeting for the combined audit of all schemes on 07 March 2024. The audit kicked off with an introduction round of all participants. This included a rundown of the audit plan, sample-based methodology description and explanation of the aim of the audit. This also included a brief on the CB's internal audit report approval and confidentiality

confirmation among of the auditor.

With this covered, the auditor proceeded to cover all applicable requirements of the Standards, including management system, CoC, recordkeeping requirements, emission and energy data. This was followed with an audit of the purchasing and sales functions. During the process, the overall responsible person for the SBP system and responsible staff with key responsibilities within the system were interviewed.

The closing meeting was held in the afternoon. During the closing meeting, auditor explained the results of the audit and further actions were discussed.

Present during the opening meeting and the closing meeting were Frank Lund Larsen, Managing Director, Rasmus Vadmand, Certification manager and Rufus Larsen, Logistik og transport, together with Preferred by Nature's auditor Christian Jürgensen.

4.3 Sampling methodology

Sampling on the purchase and sales documents were reviewed

4.4 CB stakeholder engagement

N/A - trader only

4.5 Stakeholder feedback

N/A - trader only

5 Results

5.1 Main strengths and weaknesses

The Organisation is a trader of biomass and has simple scope and a simple management system with only limited trading of SBP claimed material. This produces good visibility in all operations going on at the company and easy to implement the CoC and SBP procedures.

Weaknesses: No weaknesses related to the Organisation's performance and its adherence to SBP requirements were found during the audit.

5.2 Rigour of Supply Base Evaluation

Not applicable

5.3 Collection and communication of data

The Organisation generally transfer all data via the RADIX Tree platform, but is also able to conduct trades organised with SREGs should this be necessary.

5.4 Competency of involved personnel

The Organisation has appointed competent personnel to handle to its SBP certificate and associated activities. The main responsible person is Managing Director Frank Lund Larsen supported by Rasmus Vadmand and Rufus Larsen. Other interviewed staff showed good competence, good awareness of standard requirements and own responsibilities.

6 Review of company's risk assessments

6.1 Overview of company's risk assessments and mitigation measures

Not applicable

6.2 Specified risk indicators and mitigation measures

Country:

N/A

Indicator:

N/A

Specific risk description:

N/A

Mitigation measure:

N/A

7 Non-conformities and observations

8 Certification decision

Based on the auditor's recommendation and the Certification Body's quality review, the following certification decision is taken:	
Certification decision:	Certification approved
Certification decision by (name of the person):	Mikhail Rai
Date of decision:	22 Apr 2024
Other comments:	N/A
